NATURE

Light Filtering

An alternative to traditional vertical blinds, These elegant smart shades serve as a gauzy barrier against bright light and prying eyes while allowing you to easily access your outdoor living spaces and enjoy the beautiful climate.

RIVER

Light Filtering

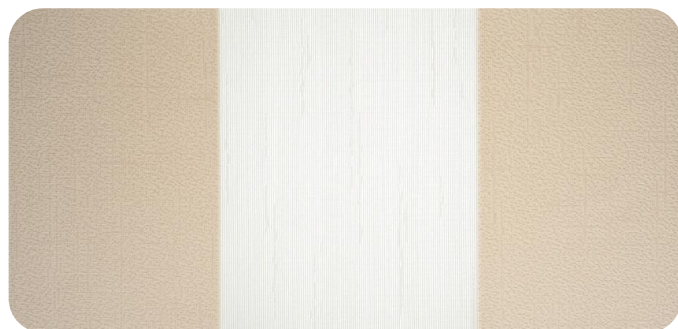

One of the standout features of our vertical drapes is its ability to tilt and adjust the veins for optimal light control and privacy. Whether you want a sheer view to let in natural light or complete privacy at night, the new Smart Drape allows for seamless transitions with just a simple adjustment.

CLASSIC BO

Room Darkening

The unique individual vane construction lets you experience one of its two different built-in opacities. Setting your shades to "open", you'll be able to view the sheer side which comes in a variety of patterns, such as circles and teardrops, while granting you a clearer view of the outside and better illumination.

ELEGANT BO

Room Darkening

Go from a sheer to solid fabric with a simple twist of the wand; open or close the vanes completely by sliding the wand across the shade. Be in control of your window coverings, not the other way around.
