LOOKING FORWARD TO YOUR CHOICE

Tell us the color number or send us a picture, and we can make it for you. We also customize window shade width and height to make sure bamboo shades fit your window. Roman shades will have different blackout linings sewn to the back of the natural woven wood fabric. Depending on the blackout efficiency of the linings, your Roman blinds will show either full blackout or light filtering. You can choose the lining depending on how light filtering you want it to be.
